

2018 NIGHT OF THE STARS BENEFITS BHC YOUTH COMMUNITY

NIGHT OF THE STARS BENEFITS THE BHC YOUTH COMMUNITY, INCLUDING THE E.B. HIRSH EARLY CHILDHOOD CENTER AND YOUTH EDUCATION

The E.B. Hirsh Early Childhood Center

1. Engages in best practices for early childhood education.
2. Our curriculum is developmentally appropriate for each student.
3. Our curriculum is play based; brain research tells us that this is the best way for young children to learn. The brain literally lights up when kids play and then learn from their play.
4. Our teachers continue to engage in professional development.
5. Our infant care is filling a tremendous void in the Jewish community and is filled to capacity, with a waiting list.
6. Our teachers are warm and caring, experienced, and really good. This is the place to be.

BHC Youth Education Program

1. This is not your grandfather's Religious School!
2. Our innovative programs tailored to the way individual children learn.
3. We offer popular and effective family education programs.
4. Families have multiple choices for how their children can attend our school.
5. We use multiple media for learning: music, dance, art and drama.
6. We have exciting "camping" experiences at BHC at the end of the school year and before summer programs begin.
